**2. WHY IS THIS SUPPLEMENTAL FUNDING NEEDED? INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.**

Funding shortfalls are projected in children's placement costs and services for Adoption Subsidy, Guardianship Subsidy, Children's Treatment Services, Foster Care, Foster Care Case Management Contract and Residential Treatment. There are several reasons for the shortfall.

First, the number of children moving to permanent homes through either adoption or guardianship has increased. With increased efforts through legislation expanding the definition of eligible guardians, CD has seen an increase in the number of children in guardianship. Children in Adoption placement increased by 247 in FY22 compared to FY21. Children in Guardianship placement increased also by 147 in FY22 compared to FY21. CD continues to place a concentrated effort to decrease the number of children in Foster Care by moving them to permanent home in FY22. As a result, the number of children moving to permanency are expected to increase in FY23.

For Foster Care and Children's Treatment Services, there are insufficient funds in these appropriations. Although, CD will lapse in other areas, these funds are not in the correct section to fund these payments. therefore a supplemental is needed. In FY23, there are reallocations to cover these expenses.

State statute: Sections 453.005 - 453.170, RSMo.; Federal: 42 USC Sections 670 and 5101.

**3. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? Projected shortfall are based on August End of Month Projections.

**2. WHY IS THIS SUPPLEMENTAL FUNDING NEEDED? INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.**

Based on actual MO HealthNet program expenditures through August 2022 and historical trends, it is anticipated that additional funding will be necessary to operate current MO HealthNet programs for Fiscal Year 2023. Programs with estimated shortfalls are listed below. Lapse is being used to offset the total need. This supplemental request is based on the National Public Health Emergency continuing through June 2023.

Based on actual expenditures through August 2022 and historical trends, it is estimated that additional funding will be needed in Fiscal Year 2023. The tables below outline the supplemental need by program.

This supplemental request assumes the National Public Health Emergency continues through June 2023. To qualify for the temporary 6.2% FMAP increase states must meet certain requirements. States must maintain eligibility standards, methodologies, or procedures no more restrictive than what the state had in place as of January 1, 2021. The state must also not terminate individuals from Medicaid if an individual was enrolled in the program as of the date of the beginning of the emergency period or becomes enrolled during the emergency period, as well as other requirements.

## 2. WHY IS THIS SUPPLEMENTAL FUNDING NEEDED? INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

Funds are needed for the Missouri Medicaid Access to Physician Services (MO MAPS) Program to provide supplemental payments to the State's essential Medicaid providers—the University of Missouri Health System (MU Health), University Health, and University Health Physicians. The goal is to increase access to primary and specialty care services for MO HealthNet Managed Care members while minimizing the administrative burden on the health plans, providers, and MO HealthNet. This CMS-approved payment methodology is consistent with 42 CFR 438.6(c) and was designed with technical assistance from CMS. Authorization is provided in House Bill 3011 from the 101st General Assembly.

The MO MAPS Program is a payment arrangement intended to supplement, not supplant, the base managed care rates negotiated between health plans and providers. The MO MAPS Program will operate as a pool, in which a set dollar amount is established before the start of the fiscal year that MO HealthNet will distribute to the health plans. Health plans use the pool to increase reimbursement to providers based on utilization and the reimbursement is distributed according to predetermined criteria memorialized in agreements between them and the providers.

The state estimates that the total dollar amount for this state directed payment for SFY 2023 will be \$59,636,336. The actual total dollar amount for this arrangement for SFY 2022 was \$19,487,636.

Factors that contribute to the increase include:

- Providers experienced higher unit volume, specifically with regard to pediatric codes
- Increases in commercial contract rates created an increased gap between the per unit Medicaid payment and commercial rates, contributing to an increased average commercial reimbursement
- Estimated payments increased from SFY 2022 due to increased enrollment

**2. WHY IS THIS SUPPLEMENTAL FUNDING NEEDED? INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.**

MO HealthNet reimbursement for hospice care is made at one of four predetermined rates for each day in which an individual is under the care of the hospice. The four levels of care are routine home care, continuous home care, inpatient respite care, or general inpatient care. The rate paid for any day may vary, depending on the level of care furnished. Payment rates are adjusted for regional differences in wages. Due to Part 2 language in House Bill 3011, a supplemental request will be needed for any rate increases implemented mid SFY.

### **3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.**

Senate Bill 683 (2022) modifies provisions relating to child care.

210.305.4 adds, "A diligent search shall be made to locate, contact, and notify the relative or relatives of the child within thirty days from the time the emergency placement is deemed necessary for the child. The children's division shall continue the search for the relative or relatives until the division locates the relative or relatives of the child for placement or the court excuses further search. The children's division, or an entity under contract with the division, shall use all sources of information, including any known parent or relative, to attempt to locate and appropriate relative as placement."

### **4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

The Children's Division 2020 Annual Report, Table 17 indicated that 6,912 children came into or re-entered foster care, which would require the diligent search proposed in this legislation. As a result, the Division anticipates needing 2 FTE's per region (Associate Social Services Specialist, 6 regions, 12 FTE total) of the state in order to support carrying out diligent searches.

The Division of Legal Services (DLS) anticipates a fiscal impact to DLS that could be covered by two attorneys/legal counsel. DLS anticipates the bill will generate additional CD requests for assistance from DLS litigation or permanency attorneys in seeking judicial orders releasing CD from "diligent search" efforts.

### **3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.**

Senate Bill 775 (2022) modifies provisions relating to judicial proceedings.

Section 210.1500.1 – requires law enforcement to make a report to the Children's Division per 210.115 if there is reasonable cause to suspect the child may be a victim of sex trafficking or severe forms of trafficking as defined under 22 U.S.C. Section 7102. If the Children's Division determines that the report merits an investigation, the reporting official and the children's division shall ensure the immediate safety of the child and coinvestigate the complaint to its conclusion.

Law enforcement may take protective custody of the child, if there is reasonable cause to believe that the child is in imminent danger of suffering serious physical harm or a threat to life as a result of abuse or neglect due to sex trafficking or sexual exploitation. (under section 210.125)

This bill creates the "Statewide Council on Sex Trafficking and Sexual Exploitation of Children", which would require the Director of the Children's Division or designee, to participate and DSS to provide administrative support.

The council is responsible for collecting and analyzing data relating to sex trafficking and sexual exploitation of children and to submit a report of the council's activities to the Governor and General Assembly and the Joint Committee on Child Abuse and Neglect. To include recommendations for priority needs and actions, including statutory or regulatory changes relating to the response to sex trafficking and sexual exploitation of children and services for child victims.

This legislation may require updates to the FACES system in order for DSS to issue an annual report to the Department of Public Safety and to the Attorney General's human trafficking task force.

Number of child sex trafficking victims during the previous year is covered by the HT code and would not require a FACES update.

Tracking the agency or organization victims were told to contact; and documenting annual updates on each child victim either would require a FACES update to capture this data or would have to be collected and aggregated by staff.

According to Global Orphan Prevention, relying upon data accessed from the U.S. Department of State, child sex trafficking impacts more than 17,000 young people every year. This is believed to be a low estimate. It is approximated that 2% of these young people are in Missouri, meaning that approximately 340 (17,000 x .02), prostitute victims under the age of 18 annually.

This bill requires the Children's Division upon receipt of the report to determine that the report merits an investigation, the reporting official and the Children's Division must ensure the immediate safety of the child and coinvestigate the complaint to its conclusion. This response would include the investigative response already existing in Section 210.145.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

The Division of Legal Services (DLS) estimates that it will require an additional 1 full-time employee in the form of a litigation or permanency attorney to litigate cases from the additional children coming into care as of a result of the addition of 210.1500, 210.1505, and 573.020.

Section 595.226 adds additional redacting requirements. The Division of Legal Services will need one Lead Admin Support Assistant to meet the additional requirements.

The Children's Division would require 2 FTE Program Development Specialists to provide administrative support and to serve as the point for the committee to arrange meetings dates and locations, and to collaborate with all council members to:

Collect and analyze data relating to sex trafficking and sexual exploitation of children;

Collect feedback from stakeholders, practitioners, and leadership throughout the state in order to develop best practices and procedures regarding the response to sex trafficking and sexual exploitation of children; and

Generate and submit a report of the Council's activities to the governor and general assembly and the joint committee on child abuse and neglect including statutory or regulatory changes relating to the response to sex trafficking and sexual exploitation of children and services for child victims.

An anticipated 340 additional reports a year works out to 28 investigations per month, requiring 2 FTE investigative field staff.

## PROGRAM DESCRIPTION

Department: Social Services

HB Section(s): 11.010

Program Name: Office of the Director

Program is found in the following core budget(s): Childrens Division Residential Program Unit

### 1a. What strategic priority does this program address?

Safety, wellbeing, behavior support and rehabilitative treatment services for foster care youth.

### 1b. What does this program do?

The Residential Program Unit personnel encompass two (2) distinct teams that are responsible for the licensing and regulatory oversight of licensed residential treatment agencies, notification requirements associated with license exempt residential care facilities (HB 557), the coordination of residential treatment services, residential contract development, management of child specific contracts, and monitoring specific to the services provided through the CD residential treatment program. The children served through the residential treatment program are those with needs that cannot be managed in a less restrictive setting, therefore, requiring placement in a safe, secure, 24/7 supervised setting. This program leads the effort in the coordination of residential rehabilitative services for children in care that may have delinquency histories, are medically fragile, are pregnant and/or parenting, have been abused or neglected, and/or who have emotional and/or psychological difficulties. Personnel working within this program have access to various levels of residential services depending on the specific needs of the child. Two basic federal funding streams partially help fund Residential Treatment: Title IV-E (Foster Care, and Adoption and Guardianship Assistance) and Title XIX (Medicaid). Residential contractors provide room and board, supervision, and therapeutic rehabilitative services to children within their programs. Rehabilitative services are necessary to address the behavioral needs of children and transition them to community-based settings through rehabilitative planning, evaluation, and service delivery. Children who receive such services have completed a Childhood Severity of Psychiatric Illness (CSPI) assessment to establish eligibility. A portion of the children and youth receive residential services as a result of an emergency need for placement, or are young women in need of maternity and infant care, rather than because of behavioral needs.

Residential treatment agencies are licensed and provide residential treatment services associated with the following levels of care:

- Emergency Shelter – temporary living arrangement other than their own home, which will assure a safe and protected environment.
- Level 2/Moderate/Residential – for children who are in need of twenty-four hour care for moderate behavioral needs.
- Level 3/Severe/Residential – for children who are in need of twenty-four hour care in a stable, structured, therapeutic environment that focuses on treatment.
- Level 4/Psychiatric/Intensive – for children previously in acute psychiatric hospital or children whose treatment needs are beyond severe.
- Therapeutic Foster Care Services – services provided to eligible youth consisting of highly intensive individual treatment in a family foster home setting and community environment.
- Aftercare Services – short term intensive services provided to eligible youth and their families to expedite the youth's return home from residential care.
- Maternity Residential Services – services are for pregnant adolescents for whom a family or family-like resource is not available.
- Maternity Residential Services with Infant – services for parenting adolescents and their newborn infants, for whom a family or family-like resource is not available.

## PROGRAM DESCRIPTION

Department: Social Services

HB Section(s): 11.015

Program Name: Office of Director

Program is found in the following core budget(s): Federal Grants and Donations

### 1a. What strategic priority does this program address?

Centralized mechanism for new grants

### 1b. What does this program do?

This appropriation provides the department with a centralized administrative mechanism to receive and expend new grants as they become available during the fiscal year. The Division of Finance and Administrative Services coordinates the use of this authority for the department as divisions pursue sources other than General Revenue for funding. New grants and donations provide opportunities to sustain a level of service delivery and fund program development that will better serve Missourians. Without this appropriation, the department would be forced to delay use of new grants and donations until emergency or supplemental appropriations are approved.

This appropriation is primarily used for one-time and/or time-limited federal grants and may support a wide variety of expenditures, including staff, for effective administration of the grant or donation. House Bill 11 language for this appropriation requires the department to notify the General Assembly of any new funds and the purpose for which they will be expended. New grants spent through this appropriation are transferred to the grantee division's budget through the appropriation process when it is anticipated that funding will continue for years after the grant is first received. Exceptions to this rule are made in those cases when the department is acting in an administrative capacity.

Awards planned to utilize this appropriation:

Awards which utilized this appropriation in FY22:

Division	FY23 Planned	FY22 Actual
CD	Adoption Incentives	
CD	Casey Family Service Grant	Casey Family Service Grant
FSD	MO SAVES	
DYS		Title 1

No performance measures are included for this program as it is an accounting mechanism.

### 2. CORE DESCRIPTION

The mission of Missouri Medicaid Audit & Compliance (MMAC) is to enhance the integrity of the state Medicaid program by preventing and detecting fraudulent, abusive and wasteful practices within the program, and recovering improperly expended funds while promoting high quality patient care. This unit works to reduce costs, increase efficiency of provider monitoring, and assist providers with compliance. Executive initiatives include a disclosure protocol for providers to report and refund payments identified by providers as having been received in error, or having been improperly billed to MO HealthNet. MMAC also protects the integrity of the Medicaid program by enrolling providers through a rigorous screening process. MMAC has cooperative agreements with the Department of Health and Senior Services and the Department of Mental Health, to enhance the integrity of the waiver programs through the same processes. MMAC is dedicated to preserving and protecting the Medicaid program for those in need, and to safeguarding taxpayer's dollars from fraud and abuse within the Medicaid program.

The Provider Enrollment Unit (PEU) is responsible for processing new Medicaid enrollment applications and any updates to providers' information. Providers' enrollment can be administratively deactivated or terminated for cause for a variety of reasons.

During the past seven state fiscal years, the number of authorized provider types that can enroll with Missouri Medicaid has increased from 54 to 65, representing an 20.4% increase.

The Centers for Medicare and Medicaid (CMS) continually adds new Medicaid provider enrollment requirements necessitating additional health care professionals to be enrolled. This requires more stringent, time consuming, or frequent background checks to be completed.

The number of authorized PEU staff has remained at 22 FTE since MMAC was created in 2011. The PEU has utilized temporary staff to address increased workloads, but lose those individuals shortly after they are fully trained and proficient. Continual training and monitoring of new temp staff decreases the productivity and efficiency of other PEU staff.

Over the past seven state fiscal years, the PEU has implemented new technology to process revalidation applications and to conduct required background screenings. The automated processes helped the PEU maintain acceptable transaction processing times, but the overall volume of provider enrollment transactions is predicted to increase by 7.9% during SFY23 and SFY24.

### 7. STRATEGIES TO ACHIEVE THE PERFORMANCE MEASUREMENT TARGETS:

The mission of Missouri Medicaid Audit & Compliance (MMAC) is to enhance the integrity of the state Medicaid program by preventing and detecting fraudulent, abusive and wasteful practices within the program, and recovering improperly expended funds while promoting high quality patient care. This unit works to reduce costs, increase efficiency of provider monitoring, and assist providers with compliance. Executive initiatives include a disclosure protocol for providers to report and refund payments identified by providers as having been received in error, or having been improperly billed to MO HealthNet. MMAC also protects the integrity of the Medicaid program by enrolling providers through a rigorous screening process. MMAC has cooperative agreements with the Department of Health and Senior Services and the Department of Mental Health, to enhance the integrity of the waiver programs through the same processes. MMAC is dedicated to preserving and protecting the Medicaid program for those in need, and to safeguarding taxpayer's dollars from fraud and abuse within the Medicaid program.

Currently, the Missouri Medicaid Audit and Compliance Unit (MMAC) receives 100-125 referrals per year from consumers, vendors, and other concerned parties regarding Consumer Directed Services (CDS) services payroll tax issues. MMAC anticipates the number of referrals will double to 200-225 per year.

MMAC will require a new FTE position in order to efficiently track, evaluate and investigate the referrals. Such referrals are time consuming to investigate because MMAC has to collect and compare payroll records from the CDS vendors, CDS consumers and their attendants, and the Internal Revenue Service (IRS) or Missouri Department of Revenue (DOR).

The additional FTE will also track CDS vendors' compliance with the proposed second sentence of 208.909.6 regarding vendors notifying CDS consumers of any communication or correspondence from any federal, state, or local tax authority of any overdue or unpaid tax obligation, as well as any notice of an impending garnishment.

The new FTE would be a Benefit Program Senior Specialist.

### 7. STRATEGIES TO ACHIEVE THE PERFORMANCE MEASUREMENT TARGETS:

The mission of Missouri Medicaid Audit & Compliance (MMAC) is to enhance the integrity of the state Medicaid program by preventing and detecting fraudulent, abusive and wasteful practices within the program, and recovering improperly expended funds while promoting high quality patient care. This unit works to reduce costs, increase efficiency of provider monitoring, and assist providers with compliance. Executive initiatives include a disclosure protocol for providers to report and refund payments identified by providers as having been received in error, or having been improperly billed to MO HealthNet. MMAC also protects the integrity of the Medicaid program by enrolling providers through a rigorous screening process. MMAC has cooperative agreements with the Department of Health and Senior Services and the Department of Mental Health, to enhance the integrity of the waiver programs through the same processes. MMAC is dedicated to preserving and protecting the Medicaid program for those in need, and to safeguarding taxpayer's dollars from fraud and abuse within the Medicaid program.

**2. CORE DESCRIPTION**

This funding supports maintenance and operations for MMAC's Program Integrity (PI) Solution, implemented during October 2020. The PI Solution replaced the previous Fraud and Abuse Detection System (FADS), the Surveillance and Utilization Review System (SURS) and several other legacy PI databases that were outdated and no longer supported. The PI Solution, which includes a comprehensive electronic case management module, utilizes the most up-to-date technologies for the detection of provider and participant Medicaid fraud and abuse. The PI Solution provides enhanced capabilities for audit and investigations processes and allows for data mining, identification of claims outliers, and ad hoc query/reporting capabilities. This funding also supports continuing operation of a solution that conducts federally required eligibility screening and monthly monitoring of all enrolled Missouri Medicaid providers, as well as their owners and managing employees. This funding will also support system changes that allow the state to remain in compliance with changing federal requirements for the enrollment and monitoring of Medicaid providers.

### 2. CORE DESCRIPTION

Federal law requires states to contract with a Recovery Audit Contractor (RAC) to identify and recoup Medicaid provider overpayments. This appropriation funds contractor contingency payments for overpayment recoveries. DSS received a 2 year waiver (exemption) from the Centers for Medicare and Medicaid Services (CMS) for RAC services. In September 2016, DSS was granted the RAC wavier that was effective 1/1/2016 to 12/31/2017. This waiver covered calendar years 2016 and 2017. The waiver exempted Missouri from the requirement to have a RAC, as long as certain provisions are met. In the request, the provisions included MMAC continuing to provide audit and investigation services for the state, as well as utilizing another contractor to complete credit balance audits of long term care facilities and hospitals. On May 7, 2020, DSS requested renewal/extension of the waiver (exemption). In June 2020, the waiver was approved through 03/31/2022. CMS stated no further RAC waivers will be granted. DSS will be contracting with HMS to be the RAC effective 10/1/2022. CMS has agreed to pay any contingency fees that DSS would owe HMS for Medicaid funds recovered on behalf of the state.

## PROGRAM DESCRIPTION

Department: Social Services

HB Section(s): 11.045

Program Name: Office of Director

Program is found in the following core budget(s): Recovery Audit Contract (RAC)

### 1a. What strategic priority does this program address?

Identify/recoup Medicaid provider overpayments

### 1b. What does this program do?

The federal government requires states to contract with a Recovery Audit Contractor (RAC) to identify and recoup Medicaid provider overpayments. State Medicaid programs may contract with one or more RACs to identify underpayments and overpayments and to recoup overpayments. Payments to Medicaid RACs are contingency-based and linked to overpayments the contracts identify. Missouri's first RAC contract ended November 30, 2015. There were no bidders for subsequent RAC contracts. Following the lead of other states in the same circumstance, DSS submitted a State Plan Amendment (SPA) to request a waiver of the RAC requirement. CMS granted waivers between 2015 and 2022. CMS stated no further RAC waivers will be granted. DSS will be contracting with HMS to be the RAC effective 10/1/2022. CMS has agreed to pay any contingency fees that DSS would owe HMS for Medicaid funds recovered on behalf of the state.

Missouri Medicaid Audit and Compliance (MMAC) works with a contractor to verify recoupment and/or payments. Once 100% of the payment has been received for the audits conducted, an invoice is submitted by the contractor for the contingency fee percentage related to the amount of recoveries.

#### Contingency Fee Percentages

Total Amount of Overpayment Recoveries	Contingency Percentage of Total Overpayments Recovered
\$0 to \$10,000,000	12.0%
\$10,000,000.01 to \$20,000,000	9.5%
\$20,000,000.01 to \$50,000,000	8.0%
\$50,000,000.01 to \$60,000,000	9.0%
> \$60,000,000.01	12.0%

No performance measures are included for this program as it is an accounting mechanism.

## PROGRAM DESCRIPTION

**Department:** Social Services

**HB Section(s):** 11.055

**Program Name:** Division of Finance and Administrative Services

**Program is found in the following core budget(s):** Revenue Maximization

<b>1a. What strategic priority does this program address?</b>
---

Mechanism for maximizing program funding

<b>1b. What does this program do?</b>
---------------------------------------

The Department of Social Services works with contracted entities that specialize in maximizing federal program dollars and identifying other non-GR sources. This program also provides a mechanism to make contingency contract payments on outstanding revenue maximization projects. The following projects are either planned or ongoing for FY23:

Cost Allocation Plan (CAP)

Contractor: Public Consulting Group

Project Description: This contract is to support the Department's Public Assistance Cost Allocation Plan (PACAP), assisting with updates to the narrative, assisting with responding to questions from federal agencies such as Cost Allocation Services (CAS), providing support to the AlloCAP system, and providing responses to ad hoc questions and inquiries from DSS related to the plan and federal claiming as necessary. The PACAP identifies, measures and allocates all costs incurred by the Department to each benefiting program to allow for the federal share of expenditures to be properly and accurately claimed.

Financial Sub recipient Monitoring Services

Ongoing for FY23

Project Description: To assist the Missouri DSS to acquire professional monitoring services. These services are required to perform desk and on-site financial monitoring of various programs such as Supplemental Nutrition Assistance Program (SNAP), Temporary Assistance for Needy Families (TANF), Jobs for America's Graduates (JAG), Community Action Agency's administration of the Community Services Block Grant (CSBG), and Low Income Housing Energy Assistance Program (LIHEAP) programs. DSS is responsible for performing monitoring of these funds, and the objective of the monitoring is to determine that the programs are administered in compliance with financial contract requirements and federal regulations.

No performance measures are included for this program as it is an accounting mechanism.

## PROGRAM DESCRIPTION

**Department:** Social Services

**HB Section(s):** 11.060

**Program Name:** Division of Finance and Administrative Services

**Program is found in the following core budget(s):** Receipt and Disbursement - Refunds

### 1a. What strategic priority does this program address?

Timely deposits of receipts

### 1b. What does this program do?

These appropriations allow the department to make timely deposits of all receipts, and to make refunds or corrections when necessary. Pursuing this method creates additional interest earnings for the state treasury. Delaying the deposit of funds increases the chance that funds will be incorrectly used. The State Auditor, who routinely reviews the cash receipt function of the department for accuracy and timeliness, endorses prompt deposit of all funds received. The appropriations also affords the department the authority to make correcting payments in the event funds were originally deposited to an inappropriate fund or when refunds to the payer are required due to an original overpayment.

The Department of Social Services receives hundreds of checks daily. Fiscal integrity and internal controls over cash receipts call for prompt deposit of all funds until a determination can be made as to proper deposit or distribution of the funds. A typical transaction would be when insurance companies and/or other parties liable for medical bills of clients reimburse Medicaid for the entire cost of the care rather than only the portion paid by Medicaid. Later, when the proper amount is determined, a refund is issued from this account for the difference. Another frequent use of this appropriation is to refund a portion of the premium paid by a family when they leave the program.

No performance measures are included for this program as it is an accounting mechanism.

## PROGRAM DESCRIPTION

**Department:** Social Services

**HB Section(s):** 11.070

**Program Name:** Division of Legal Services

**Program is found in the following core budget(s):** Division of Legal Services

### 1a. What strategic priority does this program address?

Providing legal and investigation services

### 1b. What does this program do?

The Division of Legal Services (DLS) provides comprehensive legal support to all program and support divisions in the Department of Social Services (DSS) to division staff with accomplishing the Department's goals and objectives.

DLS is functionally organized into four major sections:

#### General Counsel

The General Counsel and Director of the Division of Legal Services is responsible for supervising the functions of the Division of Legal Services and for providing legal advice to the Directors of the Department and the Divisions within the Department. The General Counsel also directly supervises the Special Counsels for each of the program divisions who provide legal research and advice on the individual programs; work with the Attorney General's office in defending complex litigation involving DSS; prepare fiscal notes and legal analysis on pending legislation; review and draft contracts; review and draft administrative regulations; assist the Communications Director in administering DSS' compliance with the Sunshine law; and ensuring DSS' compliance with privacy laws.

#### Litigation

The Litigation Section provides legal counsel and representation to the Department of Social Services and its divisions. The Chief Counsel for Litigation administers the section and assists the General Counsel in providing legal assistance and advice to the DSS Director to ensure that the programs and policies of the Department are implemented in the manner provided by law. Litigation attorneys are based in offices in Jefferson City, St. Louis, Raytown, and Springfield. The Permanency Attorney Initiative (PAI) unit is managed by the Chief Counsel for Litigation and consists of 12 full time attorneys who are embedded in Children's Division offices in Kansas City, St. Louis, and some rural circuits. The PAI unit was created to address institutional and cultural barriers to swift and safe permanency and the attorneys provide legal advice and representation exclusively to the Children's Division. In addition, contract attorneys assist in providing legal services in permanency work.

Litigation attorneys provide legal representation to DSS in many tribunals including circuit courts, juvenile courts, administrative hearings, and benefits appeals. Duties include, but are not limited to:

- Providing legal advice and representation to Children's Division and the Division of Youth Services in juvenile court;
- Defending hotline cases in circuit courts and providing legal advice to the child abuse and neglect system;
- Providing legal advice and representation to the Division of Youth Services to assist its mission of addressing the needs of delinquent youth;
- Providing legal advice and representation on matters involving compliance with laws governing the confidentiality of records including subpoenas and discovery requests; and
- Serving as a liaison between the Department and its divisions, and the Missouri Attorney General's Office on cases involving routine litigation.

## PROGRAM DESCRIPTION

**Department: Social Services**

**HB Section(s): 11.070**

**Program Name: Division of Legal Services**

**Program is found in the following core budget(s): Division of Legal Services**

### Documents Management Unit (DMU)

The DMU is the redaction unit for Children's Division documents. This unit consists of 5 full time employees, including the supervisor. Documents are provided to the DMU by Children's Division workers, DLS attorneys, and direct requests from constituents. DMU employees are highly trained to redact all confidential and privileged information from documents prior to releasing to the requestor or to the court.

### Administrative Hearings

The Administrative Hearings Section is comprised of hearing officers based in Jefferson City, St. Louis and Raytown who conduct hearings related to child support enforcement and public benefits. The attorneys who conduct hearings are qualified and trained to provide fair hearings.

Hearing officers assigned to child support hearings provide full and fair hearings in all aspects of the child support process, including establishment, enforcement, and modification of administrative child support orders.

Hearing officers assigned to public benefits hearings provide full and fair hearings related to over sixty different programs, including hearings for public benefit and service recipients who are challenging a decision of the Family Support Division, Children's Division or the MO HealthNet Division. These due process hearings provide a forum for determining whether the denial, modification or termination of public benefits or services was justified. These hearing officers provide due process to all participants expeditiously and promote the integrity of state programs, including food stamps, cash assistance, and medical assistance programs.

Hearing Officers also hear provider appeals of Children's Divisions' decisions to deny or revoke the registration of child care providers from the state's childcare subsidy program and conduct hearings on adoption and foster home licensure.

Hearing Officers may process hearings for other Departments under particular programs.

### Investigations

The Investigation Section is divided into three units: Welfare Investigations Unit (WIU), Claims and Restitution Unit (C&R), and the Special Assignment Unit (SAU).

The Welfare Investigations Unit (WIU) conducts welfare fraud and abuse investigations committed by public assistance recipients. These investigations can result in the criminal prosecution of offenders, civil collections of inappropriately paid benefits, deter fraud and increase cost avoidance. Additionally WIU investigators are responsible for:

- Staffing four regional welfare fraud/abuse hotlines;
- Conducting all collections interviews and procuring promissory notes;
- Conducting all DSS employee threat investigations; and
- Preparing for and testifying in administrative hearings and criminal court proceedings.

Claims and Restitution Unit (C&R) is responsible for collection efforts for all claims in the public assistance programs administer by DSS. C&R operates and manages the Claims Accounting Restitution System (CARS) and administers the Treasury Offset Program. The C&R unit also conducts background investigations on prospective DSS employees and research in support of DLS Investigations.

The Special Assignment Unit (SAU) is responsible for conducting criminal, personnel and internal investigations involving DSS, its employees and contracted vendors. This unit also furnishes technical support and investigative assistance to the various DSS divisions in their administration and control of departmental programs. The SAU conducts research in support of DLS data analytic investigations projects.

DLS also coordinates the department's compliance with the federal Health Insurance Portability and Accountability Act (HIPPA) and other state and federal privacy mandates. HIPPA requires that the Department have a privacy officer to oversee the Department's implementation of HIPPA standards within the Department and training of Department employees on HIPPA standards and the continuous compliance with the rules.

### 2a. Provide an activity measure(s) for the program.

These numbers may not include cases carried over from the prior fiscal year.

The number of requests were down due to restrictions on closing certain benefits cases as a result of the CARES Act. When those restrictions are removed, we anticipate a significant increase in benefits hearing requests.

### 2b. Provide a measure(s) of the program's quality.

WIU Investigators conduct criminal investigations on all cases, with the understanding that welfare fraud and abuse is a crime. The most egregious cases are sent for criminal prosecutions and the remainder for administrative actions. Disqualification from the Food Stamp Program results from an intentional program violation, which includes, fraud and EBT trafficking.

Administrative child support establishment and modification procedures are federally mandated to receive Social Security funding under 42 USC 654, as well as being specified within individual public benefit program statutes. An administrative hearing process is mandated for public benefits programs as follows: TANF 42 USC 602. MO HealthNet ("medical assistance" / title XIX) 42 USC 1396a. SNAP 7 CFR 273.15 and 7 USC 2020. SNAP Disqualification 7 USC 2015. DLS provides investigation services for SNAP fraud, claims and restitution and MO HealthNet fraud. The litigation section manages cases related to MO HealthNet utilization, child protection and permanency planning in the areas of foster care, adoption and reunification. The Investigations section is pursuant to CFR 273.16, which states in part: The State agency shall be responsible for investigating any case of alleged intentional Program violation, and ensuring that appropriate cases are acted upon either through administrative disqualification hearings or referral to a court of appropriate jurisdiction in accordance with the procedures outlines in this section.

A complete list of federal mandates can be found with each program description in the divisions that administer the above listed programs.

**3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.**

DLS is requesting to purchase a case management system that is cloud based and enables data tracking. The case management system would allow for seamless multi-location and intra-DLS collaboration and vastly streamlined case management, teamwork, document management, sharing, and performance analytics. Most of these, such as the performance analytics, do not currently exist and subscribing to a case management system would allow DLS to track time spent and outcomes to self-improve and report out to monitoring entities. The complexity of organizing data requires a database that can: (1) provide case status, (2) accurately track case management progress, (3) enable the user to create new documents and attach documents to a case, and (4) provide timely accurate reports to increase productivity. DLS must accurately track legal case management progress to determine practice matrices, markers and performance. It is also possible that increased tracking on a case by case basis will allow DSS to claim federal funding on DLS activities that currently get billed solely to General Revenue because DLS cannot currently sufficiently track activity to permit such federal claiming. DLS surveyed and demo-ed multiple possible case management systems.

### 6. PERFORMANCE MEASURES (If new decision item has an associated core, separately identify projected performance with & without additional funding.)

#### 6a. Provide an activity measure(s) for the program.

It is difficult to accurately measure the activity, or number and types of cases we handle when the exact same query returns 3 consecutive times provides 3 different results. DLS needs to measure the number of cases handled in one fiscal year. As another example, the current system allows for measurement of cases that were opened and cases that were closed, but without assistance from IT, the system is unable to capture cases that were open in the previous fiscal year and remain open.

Due to new federal laws regarding adoption and termination of parental rights and specific time standards, DLS must be able to accurately account for not only what cases it is prosecuting, but also the time in which it takes to prosecute a case to final disposition. There are various reasons why such cases may take longer than others, including difficulty of service, complexity of case, court docket availability, and witness availability. We cannot track these variables with the current database. Tracking is important to determine where and why cases are delayed so DLS can implement solutions where possible. Tracking accurately would allow DLS to identify trends with individual attorneys and the individual juvenile courts.

The case management system would allow DLS to accurately track cases across multiple work locations seamlessly and with immediate feedback, thereby saving significant amounts of time and effort by DLS employees and creating better systemic results for DSS and the people that depend on DSS.

#### 6b. Provide a measure(s) of the program's quality.

Currently, in order to measure progress, it requires manual input in a newly created Excel spreadsheet from at least two individual employees. Those two employees spend approximately 32 hours per month tracking the TPR case updates and status changes. This is not time-efficient and does not allow for report updates when those employees are out of the office. A modern database designed specifically for government attorneys would allow accurate and timely reporting and tracking.

A case management system is specifically designed to allow for this kind of reporting and tracking.

## NEW DECISION ITEM

**Division of Legal Services**  
**DI Name Case Management System** **DI# 1886024**

**Budget Unit** **88912C**  
**HB Section** **11.070**

### 6c. Provide a measure(s) of the program's impact.

DLS is currently unable to provide accurate data on the impact of its work, other than anecdotal evidence and manually retrieved data. For example, it is currently not possible with the database DLS uses to simply run a report that tells the number of open cases DLS has handled or is still handling in any given period of time. Without that information, DLS cannot accurately provide information or data to management or budget that would illuminate the vast benefit DLS brings to DSS.

For every child whose parents' rights are terminated and who is subsequently adopted, the state saves the costs of foster care and the myriad of services provided to the family in the reunification effort, including but not limited to parenting classes, parent aid, supervised visits, therapy, therapeutic visits, and transportation for visits. More importantly, that child can experience permanency and have the opportunity to grow up in a safe and stable home. In addition the 2022 DSS Placemat seeks to "deploy system and technology improvements to improve citizen experience". Better tracking and data from DLS would greatly assist in getting at-risk kids to better placements.

### 6d. Provide a measure(s) of the program's efficiency.

DLS attorneys prosecute Termination of Parental Rights cases, de novo reviews of abuse and neglect hotline preponderance of evidence findings, defend subpoenas throughout all 114 counties in the state, and defend the agency in administrative hearings regarding various issues, among other work. DLS currently uses a manual system to measure TPR progress which is labor intensive and not readily available to a variety of users or enquirers. DLS does not have the capability to track all the matrices it needs to determine a comparative analysis among the attorneys and/or across the state.

DLS would like to be able to accurately report how long each TPR takes for each attorney, how quickly each court sets hearings, the time each court takes to enter judgment after the hearing, the time it takes to accomplish service and what barriers exist, the time from receipt of the file to filing the petition, and then compare these measures to each attorney and each individual court.

## 7. STRATEGIES TO ACHIEVE THE PERFORMANCE MEASUREMENT TARGETS:

This case management system purchase/subscription would create data when there currently is none.

## 3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

The Document Management Unit (DMU) located within the Division of Legal Services has experienced an increase of requests in recent years. In order to keep up with these requests, the DMU is requesting additional staff.

## NEW DECISION ITEM

The Document Management Unit (DMU) received 4,040 redaction requests in fiscal year 2022. In comparison, the DMU received 822 redaction requests in fiscal year 2021. There are currently 10 full time redactors and 4 vacant redactor positions. The unit was able to complete 1,057 requests and at the end of the fiscal year, and 2,176 remained pending. There are an estimated 75,000 pages waiting in backlog. Each request receives at least 2 and sometimes 3 reviews, depending on the complexity of the redaction. Assuming all redactors complete 350 pages per day multiplied by 10 redactors, an average of 3,500 pages per day could be completed with current staffing. If the redactors worked exclusively on backlog, they would spend 43 working days at 8 hours per day to complete the 75,000 pages of redactions (assuming 2 passes and not 3.) However, in addition to the backlog and current requests, DMU staff must redact emergency requests from DLS for subpoenas and other emergency situations.

At the current request completion rate, (1,057 out of 4,040), not including the backlog, the DMU will need to triple its staffing to complete redactions in a timely fashion. Additionally, the DMU is requesting that base salaries be raised from \$34,179 to \$41,136.
